

SMALL GROUP STUDY INTRODUCTION: TRUST THE POWER

This material is intended for Bible studies and small groups, especially those led by a spiritually mature, though not necessarily theologically-trained, Christian. It is designed to evoke heartfelt discussion in a safe environment where participants receive forgiveness for past failures to live as God desires. We pray also that the interaction evokes meaningful encouragement to strive to live for God in the future out of grateful love for the love he first showed us through his Son.

The goals of the sessions are:

- To help each of us see our need for the power of the gospel in our lives each day.
 - To help us treasure that gospel, even if we have known it for many years.
 - To encourage us to truly trust God's gospel promises by living joyfully and sharing him with a fallen world.
 - To help each other find specific actions that display that trust and begin doing them.
-
